-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of Group I (Figs. 1-2), and claims 1-7, in the reply filed on 03-09-2006 is acknowledged. Claims 8-23 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim.

### ***Claim Objections***

2. Claims 1 and 4 are objected to because of the following informalities: claim 1, line 6, change "without" to --outside--; claim 4, line 5, change "a" to --said--; and claim 4, line 8, change "without" to --outside--. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Benedict et al. (US#5675876) in view of Titus (US#4311235).

5. Benedict discloses a casket and memorabilia compartment assembly, the casket comprising: a shell 12; a cap 14; and the memorabilia compartment assembly comprising: a panel 30 mounted to the shell for swinging displacement between an inner hanging position (Fig. 2) and an outer hanging position (Fig. 1); the top surface of the panel defining an exposed display side which includes compartments 60,62,64 capable of retaining pictures therein, each

compartment including an outer surface, namely cover elements 90,92,94. The compartments are being viewed as pockets and include an opening at the top thereof. The display side of the panel has an ornamental appearance as the panel is finished to match the casket (col. 3, lines 5-7).

6. Regarding claims 1 and 4, Benedict fails to disclose the outer surfaces/covers being transparent. However, Titus teaches a similar display panel/tray 20 which includes a transparent outer surface/cover 60 for providing safety of the tray contents and unobstructed viewing of the contents. Therefore, as taught by Titus, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Benedict by utilizing transparent outer surfaces/covers for unobstructed viewing of the memorabilia when the compartments are covered.

### ***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
